Address: Javea, Alicante

Cumbres del Tosalet has 23 plots with varying positions, which means that you can select the one that best suits your needs. All the villas are designed with an architecture suiting a contemporary lifestyle, which contrasts with their traditional, noble and highquality materials such as Tosca stone or similar material, giving the villas added warmth and personality. Furthermore, the villas are totally customizable as per your preferences. We offer 4 basic villa models, all of which are completely adaptable to your needs, so that you can create the villa in which you really enjoy to live: with one or two floors, with extra day or night zones, all the bedrooms and other rooms that you need, parking spaces, swimming pools, gardens, etc. You are free to adapt, expand, incorporate, integrate, widen, shrink, split up, redistribute, conceptualise and create however you see fit. Choose how you want to live, and together we'll create your ideal home. We want your home to be exactly as you want it, that's why we offer you all the options to make it perfect. If there is a plot you particularly like, choose your plot and adapt your villa to it. If you like one particular model above all the others, choose your model and see which plots fit best. All the options are at your disposal, to make your house unique and unbeatable.
