Pure Design is a contemporary style villa, a pure and elegant design, with a layout so the sea and the light of the Mediterranean invades your home. Open day areas where the kitchen is joined to the living/dining room creating an adjacent area separated by a central island, an amazing area to enjoy your breakfast or a light lunch without having to miss the sea views. The living/dining room then continues on to the porch and the pool terrace, creating a unique space, as the glass sliding door that separates them slides all to one side, joining the inside with the outside.

This villa has three bedrooms and two bathrooms. The main bedroom is very light, with an en-suite bathroom, walk-in-closet and direct access to the main terrace of the property, where you can find an endless swimming pool.

Some of the Pure Design villas have a basement, which would allow you to extend your home to four bedrooms or perhaps create a leisure area, a gym there are endless possibilities. All the villas include the garden and a covered parking.

A modern project, with style and built with qualities worthy of the design that give us a unique opportunity to live in the Residential Resort Cumbre del Sol.
